Communication With General Roberts Cut Off.

Fears That He Has Fallen Into a Trap.

Rational Associated Press to the Star. LONDON, Oct. 10 .- A dispatch from Simla states that communications with General Roberts' column has been interrupted by the Ghilsias since Monday.

It is believed that the fighting between the troops and the Afghan hill tribes was renewed Tuesday, the latter gaining a decided advantage and for the present checking the advance. The absence of news gives additional force to this opinion, and croakers do not hesitate to declare that, notwithstanding the temporary success of Sunday, General Roberts has fallen into a trap and is in an exceedingly critical situation.

The column was expected to arrive at Cabul Tuesday but the absence of all intelligence leads to the conclusion in military and State circles here that General Roberts is still acting possibly on the defensive in the vicinity of Ohar Assyah, about ten miles from the capital, where the struggle of Sunday took place.

The conduct of the Ameer during his presence with the British troops excites suspicions of his present attitude. It is feared he has been guilty of the deepest duplicity through the whole affair.

Washington, D. C., Oct. 10.-The Indian problem promises to be one of the most important questions to be considered by the next Congress. WHAT GEN. SHERMAN SAYS. WASHINGTON, Oct. 10.-General Sherman reached here this morning and states that as yet he has had no special confirmation of the reported fight between Merritt and the Indians last Monday, as brought in by a courier. It is reasonable to suppose he said that had there been such a light Merritt would have made a report and sent it back to Donline.

Sr. Louis, Oct. 10.-Telegrams are continually received in regard to the missing aeronauts, but nothing comes in a tangible shape, and at best people can now only express opinions. Some of the friends of Mr. Burr are of the opinion that the two men were thrown out of the balloon at a point not far from this city, perhaps in the woods of Illinois, and, the air-ship being thus lightened, additional buoyancy was given it, and with wonderful speed it traveled in the direction of the great lakes. Pierce, the Colored Boy, Tries It Again.

Pedestrianism.

NEW YORK, Oct. 10 .- Young Murphy is still in excellent condition and he resumed the track shortly after 2 o'clock this morning, after a couple of hours sleep. Faber is not in such good condition as his trainers would wish and looks stiff about the hips. Curran is also lame and stiff and progresses slowly and painfully. Briody is also in bad condition, and begged to be allowed to withdraw, but his trainers persuaded him to remain hopeing that he would be able to save his entrance money. He can not last till to-morrow night. Howard is doing wonderfully well. He runs constantly, with an easy lope, and is gradnally gaining on Faber.

Betting men are beginning to favor him for the second place. Murphy and Howard spurted a mile and a half side by side amid great cheering, and Mahoney followed at a lively pace. Contrary to expectations, the negro Pierce, whose conduct was such that he had been abandoned by his trainer, re-turned to the track and resumed his tramp. T.
